SUMMARY

My 5+ years of experience building web applications with PHP, JS, Laravel, Drupal, Vue, Nuxt, and Strapi make me a strong candidate for this senior web developer role. I'm eager to apply my full-stack expertise to solve complex problems and deliver high-quality solutions.

EDUCATION

Cimahi 1 State Vocational High School
2013 - 2017

Software Engineering
At Cimahi 1 State Vocational High School, I studied Software Engineering. I learned basic programming (PHP, JS, C++, Visual Basic), security programs, and basic hardware/electrical concepts. In my third year, I focused on web development, choosing PHP and JS as my core languages.
